**Don't be stingy, Pass it on! Ah-choo!**

**Someone thoughtful thought of you, when they gave you the flu!**

**Whenever someone sneezes, out into the air**

**They spray a million germs on you, because they like to share!**

**Especially if they are sick, we should thank them, I suppose**

**Because they are so gen'rous with the contents of their nose!**

### **Chorus**

**Now if you cover up your mouth, ev'rytime you sneeze**

**Well that seems kind of selfish, you're not sharing your disease!**

**Someone gave you THEIR germs, and now you just won't share,**

**We thought that you liked us,... please show us that you care!**
