(G) (2:30)

Intro:

When you're sitting at the Doctor's
'Cause you've been feeling low
And the Doctor tells you some big giant
Word that you don't know,

Cho: Ask away! Ask away!
Don't wait to ask a question
When you need to know right now!
Ask away! Ask away!
Find out who-what-where-when-why and how?!

When you're sitting in the classroom
And you haven't got a clue
'Cause your brain went on vacation,
Well, here's the thing to do

Chorus

Brdg1: Go ask someone politely
No need to yell or shout
And if they don't know the answer
Then you both can go find out!

Brdg2: Like, who made up the name for the moon?
And how does a butterfly grow wings in a cocoon?
And where do all my pencils go when I need to write?
And where does it go, when I loose my appetite?
If I sit on an egg, will a little chicken hatch?
Why do itches move, when I start to scratch?
This weekend, can we all go up and float in outer space?
N'when I ask you my questions, why do you make that face?!

So if you're lost up in the forest
With no clue which path to choose
There's no need to be embarrassed
Ask a moose if you're confused!

Chorus

Cho4: Ask away! Ask away! Don't wait to ask that question
When that question starts to burn!
Ask away! Ask away!
'Cause asking a question is a great way to learn!
