

MY LITTLE CLOCK

You've got a big clock	C-G
I've got a little clock too	F-C
Your clock's for your time	C-G
Your big clock pushes you	F-G-C
When you're in a hurry	
My little clock's pushed aside	
Y'make me use your clock	
Y'don't care about my clock's size	

When your clock is ticking	F
Then everything changes	C
You haven't got time to explain	F-G-C
I have to use your time	F
You push me and pull me	Am
And it never enters your brain, that	D-G-C

You've got a big clock
I've got a little clock too
My clock's for my time
Your clock's time is up to you
Your clock's important
It's bigger, it makes more noise
But my clock's important
Though you think it's just a toy

You're only trying
To help me feel better
At least that's what you say
But I feel angry
I don't feel better
When m'little clock's treated this way, ohhh,

You've got a big clock
I've got a little clock too
I listen to your clock
Please listen to m'little clock too

I've only got a little time	C-G
Do you have a little time?	F
A little time on your big clock?	G
That's all that I want from you.	G-C
