

## GOOD TIME

Pick figure

I see that you're alone  
Y'look like someone I once knew  
I'm just a little drunk, but do you mind?  
I hope I haven't blown  
My chances here with you  
What I'm about to say sounds like a line

Cho: Well, I've made it this far  
I came out to have a good time,  
And here you are,  
I came out to have a good time  
And would you like to share a glass of wine?  
Cause I'm alone in here  
And I came out to have a good time.

Pick fig2 w bass

This elevator goes so slow  
When you look at me that way  
I'll ride up and see you to your door  
First you tell me "No"  
Then your husband's gone, you say,  
Sure, you slip into something else, I can't think anymore

Chorus (And even though the evening's going fine)

I'm sorry if I hurt you  
God, you kiss like silk and velvet  
I'm dizzy and so light that I could fly  
You're really good, you know  
But I guess I'd better go  
I don't know why it is, sometimes I cry

Chorus (And even though your body's holding mine,)

I came out, ... to have a good time
