Voice Memo (Get Well Soon)*

Get well soon (feel better)
Get well soon
You fell upon the ground
But I know you are gonna feel better soon
When you have a boo boo
I'll kiss it for you
I love you so much

Yes it's true When you fall on the ground And it makes a poopie sound And you bust on your knee I'll make it feel better You are my pretty girl And I love you so much

Justice put that up right now the dog will choke Justice don't throw stuff to the dog that's not food He could choke on it

You feel better
You want a little more song or you all done
More song
Little Stell
Stelly Belle
Soon you will feel well
So I'll kiss on your knee

Till it feels better

You will say

You will say

Maybe I need a band-aid

And we'll put it on your boo boo

And you'll smile soon

Because you're a very big girl

You're gonna fall down but it's okay

Because you are stronger than a tree

And will be like the roots

In the ground one day

So you don't need to cry

Just close your little eyes

Get you water and a monkey pillow to lay on (ahh)

Cause you'll feel much better

When daddy's giving you hugs

And kisses cause I love you so much

Love you too
