

Elephant

words and music by Charlie Wadhams

I read in the news about an elephant who speaks
He shows the others how to live, he shows them what to eat
He shows them with his eyes
He tells them with his mind

And I read in the news about a prehistoric fish
As big as 7 elephants, a face you'd never kiss
A head you wouldn't want
Two eyes designed to haunt

And I just wanna see 'em
I just wanna see 'em
I just wanna see 'em
I just wanna see 'em live

And I read in a book about a bee that doesn't sting
He carries all the honey to the one who is the Queen
He lives out in the wild
He dances like a child

Yea I just wanna see 'em
I just wanna see 'em
I just wanna see 'em
I just wanna see 'em
I just wanna see em live
