

Forever and Forever
words and music by Priscilla Ahn

It's time to get up and go to so many places
So open your eyes and rise, I'll show you what today is
Maybe we will go to the park
Maybe we will stay out after it gets dark

You and I forever and forever
You and I forever and forever

So come on let's eat, brush our teeth, get out of these pajamas
Throw on some clothes, and let's go, I'll pack us some bananas
I will take you for a ride, to your favorite jungle gym and playground slide

You and I forever and forever
You and I forever and forever

One day you will go to school leaving me behind
When you come home you'll wanna be alone, and baby that's just fine

'Cause in my heart I'll know you remember all the places
We'd go in a day to play, making funny faces
And even though your life carries on
I'll be here if things go wrong
I'll take you to your favorite place to laugh and run

You and I forever and forever
You and I forever and forever
