

LEAVES

words and music by John Gold

When you feel that weight
Off of your shoulder
That's where the love is
It's coming out of the leaves

An eternal fade
Long and silent
That's where the love is
It's like the flower in your head

Nature's gonna know you
Plants are gonna take you in
If you're lost
If you're lost they don't mind repeating

Clouds are gonna hold you
Carry you and lead you home
One truth
One truth never fades away

When you feel that weight
Off of your shoulder
That's where the love is
It's coming out of the leaves

Nature's gonna know you
Plants are gonna take you in
If you're lost
If you're lost they don't mind repeating

Clouds are gonna hold you
Carry you and lead you home
One truth
One truth
Gonna sing it again

Clouds are gonna hold you
Carry you and take you home
One truth
One truth
Never fades away
