

Underwater Caves

[Intro]

Underwater Caves

We gotta to go low, We gotta to go low

Underwater to the ocean floor

Underwater it's time to explore

[Chorus]

Underwater Caves, Underwater Caves

Underwater Caves, Underwater Caves

Gotta get down below the waves

To see Underwater Caves, Underwater Caves

Underwater Caves, Underwater Caves

Underwater Caves, Underwater Caves

Gotta get down below the waves

To see Underwater Caves, Underwater Caves

[Verse 1]

Take a deep dive in the ocean

Wearing scuba gear

Gotta jump right in, there's no need to have any fear

It's time to explore

Momma earth she has so much more

Both history and New species

tell me what you're waiting for

[Pre-Chorus]

It's time to get low, Abajo

Everybody get low, Abajo

To the ocean floor, Abajo

Underwater Caves you know

[Chorus]

[Verse 2]

Traveling to inner space, chillin' in a cave

Findin' different life forms,

How do they behave?

Some of them are older than the dinosaurs we know

Can't believe we learnin' all this information down below

Then we got rocks that are showin' earths age

Showin' evolution, talkin' bout climate change

Many caves hold cultural history

We can learn about our ancestors indeed

Dale

[Pre-Chorus]

[Chorus]
