

# We're Goin' Green

By Ruth Weber

---

Verse One:

(We're Goin' Green,) gonna keep this whole world clean  
pollution detectives on the scene  
Saving power, if you know what I mean  
We're gonna turn off the lights and the t.v. screen

CHORUS:

We're Goin' Green, Green, Green, yeah  
The bestest color that you've seen, yeah  
We're setting up a new routine so that we can go green.

Verse Two:

(We're Goin' Green,) gonna start us a compost bin  
use cloth bags again and again  
recycle bottles, cans and jars  
ride our bikes instead of cars

Chorus:

We're Goin' Green, Green, Green yeah,  
The greatest color that you've seen yeah  
Setting up a new routine that's so keen..  
We're Goin' Green!

Verse Three:

(We're Goin' Green)- Take shorter showers, because we see  
That it's good environmentally  
Planting flowers for the honey bee  
And a tree for mother earth and me,

Chorus:

We're Goin' Green, Green, Green, yeah  
The greatest color that you've seen, yeah  
We're setting up a new routine so that we can go green.

Bridge-

Making sure our carbon footprint's small  
Because the things we do can hurt or help us all!

Repeat Chorus
