

SOARING THROUGH THE GALAXY

By Ruth Weber and Enrico Lopez-Yañez

Chorus:

Oohwee gonna fly, headed through the starry sky, see the planets sailing by
we're

SOARING THROUGH THE GALAXY

Gonna bring peace and love, something there's too little of, Share some
caring from above,

We're SOARING THROUGH THE GALAXY

Verse 1

Foil hats on our heads, we've got our seat belts fastened

Milky way ahead, we're going through!

Right turn at the moon, and then we're getting closer

We'll be landing soon, so much to do!

Chorus:

Oohwee gonna fly, headed through the starry sky

See the planets sailing by we're

SOARING THROUGH THE GALAXY

Gonna bring peace and love, something there's too little of,

Share some caring from above we're

SOARING THROUGH THE GALAXY,

Verse 2

Can't believe it's true, I'm so happy that I'm traveling with you flying high

Goin' somewhere new, where we can make a difference, so much we can
do when we try!

Repeat Chorus
