

Kelp!

(lyrics: Courtney Gable, © 2014; music: Lennon/McCartney, © 1965 Northern Songs)

Kelp! I need some seaweed
Kelp! Not just any seaweed
Kelp! You know it's what I need, Kelp!

(When - when I am hungry)
When I am hungry, oh so hungry like today

(I love to eat - kelp in every way!)
I love to eat some Kelp, I love kelp in every way!

(Now - my kelp is gone)
But now my kelp is gone and I'm walking out the door

(and now I find - to forage at the shore)
Now I find, that it's the time to forage at the shore

(Chorus:)
Kelp grows in the sea not on the ground
In underwater forests, it abounds
Help me get that kelp from where it's found
Won't you please, please Kelp me!

(Can - be utilized)
Kelp can be utilized in oh so many ways

(As food or fuel - stays and stays and stays)
As food or fuel, that green algae stays and stays and stays

(And - now and then -)
And every now and then I sing like John and Paul

(I know that kelp - and also ethanol)
Kelp can be used for food and also ethanol

(Chorus)

When I am hungry, oh so hungry like today

I love to eat some Kelp, I love kelp in every way!

(Now - my kelp is gone)

But now my kelp is gone and I'm walking out the door

(and now I find - to forage at the shore)

Now I find, that it's the time to forage at the shore

(Chorus)

Kelp me, Kelp me - ooh!
