Belly Button

I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

I don't care if it's an outie or innie
If it's fat or if it's skinny
Unless you're magic like a jinny
Cover it up right now

And I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

When some pirates get together
They got a box that's filled with treasure
They put it in a hole and for good measure
They cover it up right now

And I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

Hey, I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

When a doggie's got a bone
He wants to chew it all alone
If another dog is coming along
He'll cover it up right now

And I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover that thing up right now

I don't wanna see your belly button
Your belly button, your belly button
I don't wanna see your belly button
So cover it up right now

I don't care if it's an outie or innie
If it's fat or if it's skinny
Unless you're magic like a jinny
Please cover that thing up now

I don't wanna see your belly button
Your belly button, your belly button
No, I don't wanna see your belly button
So cover it up right now

Hey, I don't wanna see your belly button
Your belly button, your belly button
No, I don't wanna see your belly button
So cover it up right now
Please cover it up right now
Hey cover it up right now
I want you to cover it up right now
