Bring Back My Freight Train

I had a dream last night
We were on a train
And we all were singing
When it started to rain
We pulled into the station
And we stepped outside
Got out our umbrellas
When the conductor cried

Bring back my freight train
Bring it back to me
Bring back my freight train
Bring it back to me
Please Mister Engine Driver
Won't you bring it back to me

Bring back my freight train
Bring it back to me
Bring back my freight train
Bring it back to me
Meet you at the station in the morning
Won't you bring it back to me

Bring back my freight train
Bring it back to me
Bring back my freight train
Bring it back to me
I've been up all night crying
Won't you bring it back to me
