

# Curiosity

They say curiosity killed the cat  
But a cat has nine lives, so how'd they figure that  
I have so many questions that need answering  
Who - What - Where - Why - How  
Do you milk a Cow??? (Spoken) You go to farm, Get a bucket, sit on a stool  
and....SQUEEZE!

Curiosity, your a friend to me  
I may not get all the answers  
but I'll get some if I try

Be quiet don't speak up  
Someone else is talking  
It's rude to interrupt,so I zip my lip  
I have alot of questions inside of me  
I need to get them out, what's it like to be a bee?

(Spoken) Do bee's vibrate when they buzz? Do bees sleep at night? What exactly do  
bees take from flowers?

Curiosity, your a friend to me  
I may not get all the answers  
What - Where - Why - How - Who....Sleeps in the zoo?

(Spoken) Does the zookeeper spend the night? Do Llamas really where pajamas? Do  
animals have to brush their teeth before bed?

Curiosity, your a friend to me  
I may not get all the answers  
but I'll get some if I try

Martin Luther King, Amelia Earhart  
Franklin, Edison, Einstein & Rosa Parks  
Well they had a lot of questions needed answering  
We always done it this old way  
Let's do something new today

Curiosity your a friend to me  
we may not get all the answers.  
Curiosity your a friend to me -  
keep asking why, until I get a reply  
And don't you ever (no never)  
No no never (no never) GIVE UP!
