

It's Okay Being You

It's okay being blue - it's raining outside and theres nothing to do -
Blues can be sad and hurt a little bad but if you go through
- it's okay being blue - It's okay to cry too!

It's okay being yellow - It's not red its not green - it's a warning my fellow.
- yellow tells me to start listening and when I do - ooo -
It's okay to feel mellow - it's okay being yellow.

Any color you need to be - express who you are just don't put it on me.
So feel ALL your colors whenever you CAN!
Cause a world without colors is boring and bland!

It okay to be green - Feels like you want what someone else has.
All the Razz Ma Tazz - Green Eyed Monster - I'm recognizing you!
It's okay being green - It's not okay being mean

It's okay being red - hey - the blood rushes to my head -
Wanna yell and scream- go back to bed -- but I count to ten instead -
It's okay feeling mad it's okay being red.

Any color you need to be - express who you are just don't put it on me.
So feel ALL your colors whenever you CAN!
Cause a world without colors is boring and bland!

It's okay being rainbow - When all your happy colors flow -
Rainbow Yellow Red Green or Blue - It's okay to be you!
Rainbow Yellow Red Green or Blue - it's okay being you -----
