

Pink Flamingo

I wanna stand like a pink flamingo
I wanna hold my head up high
I wanna stand like a pink flamingo
Tip tip tip tip tippy tippy tip toe

I wanna swoop like a pink flamingo
Wanna scoop and take a drink
I wanna swoop like a pink flamingo
Ker plink ker plink ker plink ker plink

Some Flamingos are really pink
Drink a piping hot drink
Hotter then 100 degrees
Like to live in a tropical breeze

I wanna talk like a pink flamingo
long neck and pointy nose
I wanna talk like a pink flamingo
Bwalk Bwalk Bwalk Bwalk Bwalk Bwalk Bwalk

I wanna fly like a pink flamingo
Flap my wings all around
I wanna fly like a pink flamingo
Really try to leave the ground

Say Honk Honk with a funny sound
Million years they been around
Long legs - stand really tall
See and hear but smell nothin' at all

I wanna swim like a pink flamingo
Spread my wings and push them out
I wanna swim like a pink flamingo
Out Swish Out swish and
Really try to catch a fish

I wanna talk like a pink flamingo
long neck and pointy nose
I wanna talk like a pink flamingo
Bwalk Bwalk Bwalk Bwalk Bwalk Bwalk Bwalk

Bridge (music and ad lib talk)

Do flamingos really fly? The answers YES - Usually in a group is best

Do flamingos lay eggs? YES one at a time.

Why do they stand on one - not two feet?

Well because that's for body heat - how do they eat -- actually upside down
