

Water Song

Wendy Morgan Music & Lyrics
Darryl Boggs Music

(doo doo ba ba doo)
Dig Dig Digga Dig Digga Dig Dig
Dig Dig Digga Dig Dig Dig Digga
Dig Digga Dig Dig Dig Dig Digga Dig

Build me a well wide as a river
Dig down deep plenty of rain
Build me a well for clean fresh water
We all need water for body and brains

Some folks walk miles and miles for water everyday
Some folks have a reservoir and crops grow healthily

Bridge

Some catch rain in a barrel or by the morning dew
In your part of the world
how does water come to you?

When there's snow in the mountains
Will it melt right down
Do you have a river or a lake
Or pipes running underground?
If water comes from the tap or
you carry it on your head we all need water everyday
no contaminates or lead

Some catch rain in a barrel or by the morning dew
In your part of the world how does water come to you?

Some catch rain in a barrel or by the morning dew
In your part of the world how does water come to you?
(doo doo ba ba doo)
Dig Dig Digga Dig Digga Dig Dig
Dig Dig Digga Dig Dig Dig Digga Dig Digga Dig Dig Dig Dig Digga
Dig Some catch rain in a barrel or by the morning dew
In your part of the world how does water come to you?

We can turn salt water to the drinkable kind
Earth's been mostly water for a long longtime
We are mostly water me and you
They even found planet mars has some water too!

Some catch rain in a barrel or by the morning dew
In your part of the world how does water come to you?

Next time you drink a glass of water or a maybe a few
Just ask yourself how does water come to you?
