

Olly the Orca

SPOKEN: (Orca Sounds)

Hey is that a tail I just saw??

Yea it could be - Maybe it's Olly the ORCA

Olly Orca look at me

While you swim in the deep blue sea

Keep my distance as I look in Aw

Was that a tail that I just saw?

Folks would come from miles around

to see the whales and hear the siren sound

alas an ORCA is no whale

Just a BIG dolphin with a thousand pound tail

I'm in that boat up high

Watching you swim low

Then its up for air — — — — and away you go

Mama stays with your clan

Siren sounds can be heard from land

hunting, playing, splashing high

sometimes it seems you can almost fly

Olly Orca won't you look at me

with binoculars I can see

Your swimming out there with your pack

I'm just hoping that your coming back

I'm in that boat high

Watching you swim low

then it's siren sounds and then off you go

La la la verse (2 1/2 times) lower DB vocal soften

Keep my distance as I look in aw - was that a tail that I just saw.....

SPOKEN: hey Olly don't go - I'll miss you - stay away from plastic bags okay -

keep your mom and your pack close by and someday I know you'll be back - and

I'll be back too and I'll be looking for you..your so beautiful...bye Olly!
