

Bugs That Give Hugs

Verse 1

There are birds on the wing
Many leaves still on trees
And bugs will give hugs
All the day

Some bugs have lots of feet
Seem to move to their own beat
Back and forth
up and down
In their own way!

Caterpillars with lots of fuzz
look like a piece of a rug
then they turn to butterflies and fly away

Bridge

Now there are some bugs
you won't want to hug
Even if they ask you
like a bee, some spiders and a fire ant to name a few!

(Spoken) So this is what you do...
Wait for them to pass you
As they walk or fly by
you can even say "Hi" they might say "Hi" back

Verse 2

Some bugs hugs are snug
like a worm or a slug
Maybe squishy even cold
(Spoken) but hey hugs never get old

You see this bug on the path
His legs are long - he makes you laugh
Daddy long legs is no spider
but archinid!
(Spoken) he won't bite just hitch a ride

Bridge

Now there are some bugs
you won't want to hug

Even if they ask you - like a bee, some spiders and a fire ant to name a few!

Dragonflies & fireflies
give kisses & light up skys
rarely do they every land
on your nose or on your hand
But if you stand real still
you might get a big thrill
from a bug that wants a hug
once in awhile

Spoken (that'll make you smile)

Bridge

Now there are some bugs
you won't want hug

Even if they ask like a bee, some spiders and a fire ant
to name a few!

(Spoken) So this is what you do
Wait for them to pass you
And they walk or fly by You can even say "Hi"
They might say "Hi" back
