Words & Music Wendy Morgan Music Darryl Boggs

There aren't enough girl superheroes
So I'm gonna write a song
About a girl named miro
She is superhero strong

We need more superheros
So let me introduce to you...
Superhero Miro
Coming to the rescue

Bridge
The cape on her back is pink
that's a superhero clue
Her glasses see the future -
Helping Mother nature too!

There aren't enough girl superheroes
So I'm gonna write a song
About a girl with super strength
She's knows right from wrong

You can't have to many heros
So let me introduce to you
Superhero Miro -
Cleaning up the planet too!

RAP
I was flying in an airplane at 10000 feet
Looking out the window of my window seat
When I saw a pink swoosh - soaring by..
Miro Superhero - Going fast - flying high!

I asked where she was going and she pointed to a cloud
Where mother nature sat...crying out loud
Are you okay? Miro said
Mother Nature just sighed and nodded her head
she said "I could use a little help these days the
planet's getting dirty and the air is in a haze

There aren't enough girl superheroes
I wonder where they are?
If every girl can join us
and we can raise the bar!

We need more superheros
In times when things go wrong
Boys and girls can all be
Superhero strong

She said excuse me Mother Nature
We owe you an A - po - lo - gy
How- can - we - help earths E - co - lo - gy

She said Miro - can you spread the word
But we've got to make it fast
We need your superpowers - we gotta to make it last
