

It Takes All Kinds of Trucks

Music & Lyrics Wendy Morgan

It takes all kinds of trucks
To make this world go round
With big wheels and plenty
on the highway rolling down
It takes all kinds of trucks
Red, yellow, green and blue
They come in many colors just like people do

There are pick ups and flat beds
Firetrucks mostly red
Garbage and recycling truck
And even trucks that look like ducks
Spoken: Can you sound like a duck? Quack

Dump trucks and tractors
And trucks that feed actors
Mail as slow as snail trucks
Ice cream trucks I can hear the kids scream (kids scream HOORAY)

It takes all kinds of trucks using deisel fuel
In the olden days they only had a mule

Schoolbus's like trucks painted yellow and black -
Taking kids to school each day and back
Greyhounds are buses people go up and down
Some take a city bus all the way downtown

A truck is called a lorry
in some parts of the world
Bread and egg trucks
bring food to boys and girls
A flat bed can carry many hives full of bees
and logs to make houses the wood it comes from trees

It takes all kinds of trucks to clean all the dirt on the ground (so dirty)
when it's cold outside to move the snow around

Salt trucks and street sweepers
Cement mixers that are crack fixers
They can come in all sizes up to extra large
a really fast truck has an added supercharge
Some carry houses a very wide load
And others painting strips right
down the middle of the road.

It takes all kinds of folks
and the world keeps turning round
As different as we are similarities can be found
It takes all kinds of folks and every color too!
It takes all kinds of trucks and folks like me & you
