

Miracle

Since the day you were born
I said miracle, life's a miracle
Then I held you in my arms
Rocking you to sleep
Saying welcome to the world
(your child's name here) hmmm hmm
Welcome to the world

Well before that day
There were dreams of you
I had names for you
I knew someday you would feel
the warm wind on your face,
and taste a chocolate souffle,
swim in hanalei bay and do everything
in your own miracle way!

Singing lullabies as I watch your sleepy eyes
well the world outside can wait
cause its one day at a time
innocence can be taken
but tonight well be just fine
as I hold you close,
your little hand in mine

Then the day you were born
your entrance was grand
they laid you on my chest
I took you to my breast
and I saw your little fingers
and those tiny little hands
they said anything is possible
now I understand

As I look into your eyes
Every moments a surprise
Your wonder teaches me
Take a moment at a time
Growing everyday don't forget your baby ways
Speak your mind and your voice you will find!

Since the day you were born
I said (spoken) miracle...life a miracle
Then I held you in my arms
Rocking you to sleep
Saying welcome to the world
(your childs here) hmmm hmm

Welcome to the world.....Miracle...life's a miracle
